Travel Highways 10 and 89
The Livingston-Gardiner
Water-Level Route
to Yellowstone Park

Fifty-six miles of inspiring mountain scenery as you ride through one of Montana's finest agricultural and livestock areas — the pioneers established Paradise Valley, and today's residents appropriately keep that name.

Your ride is at WATER LEVEL along the banks of the Yellowstone River — the "fishinest" river in Montana.

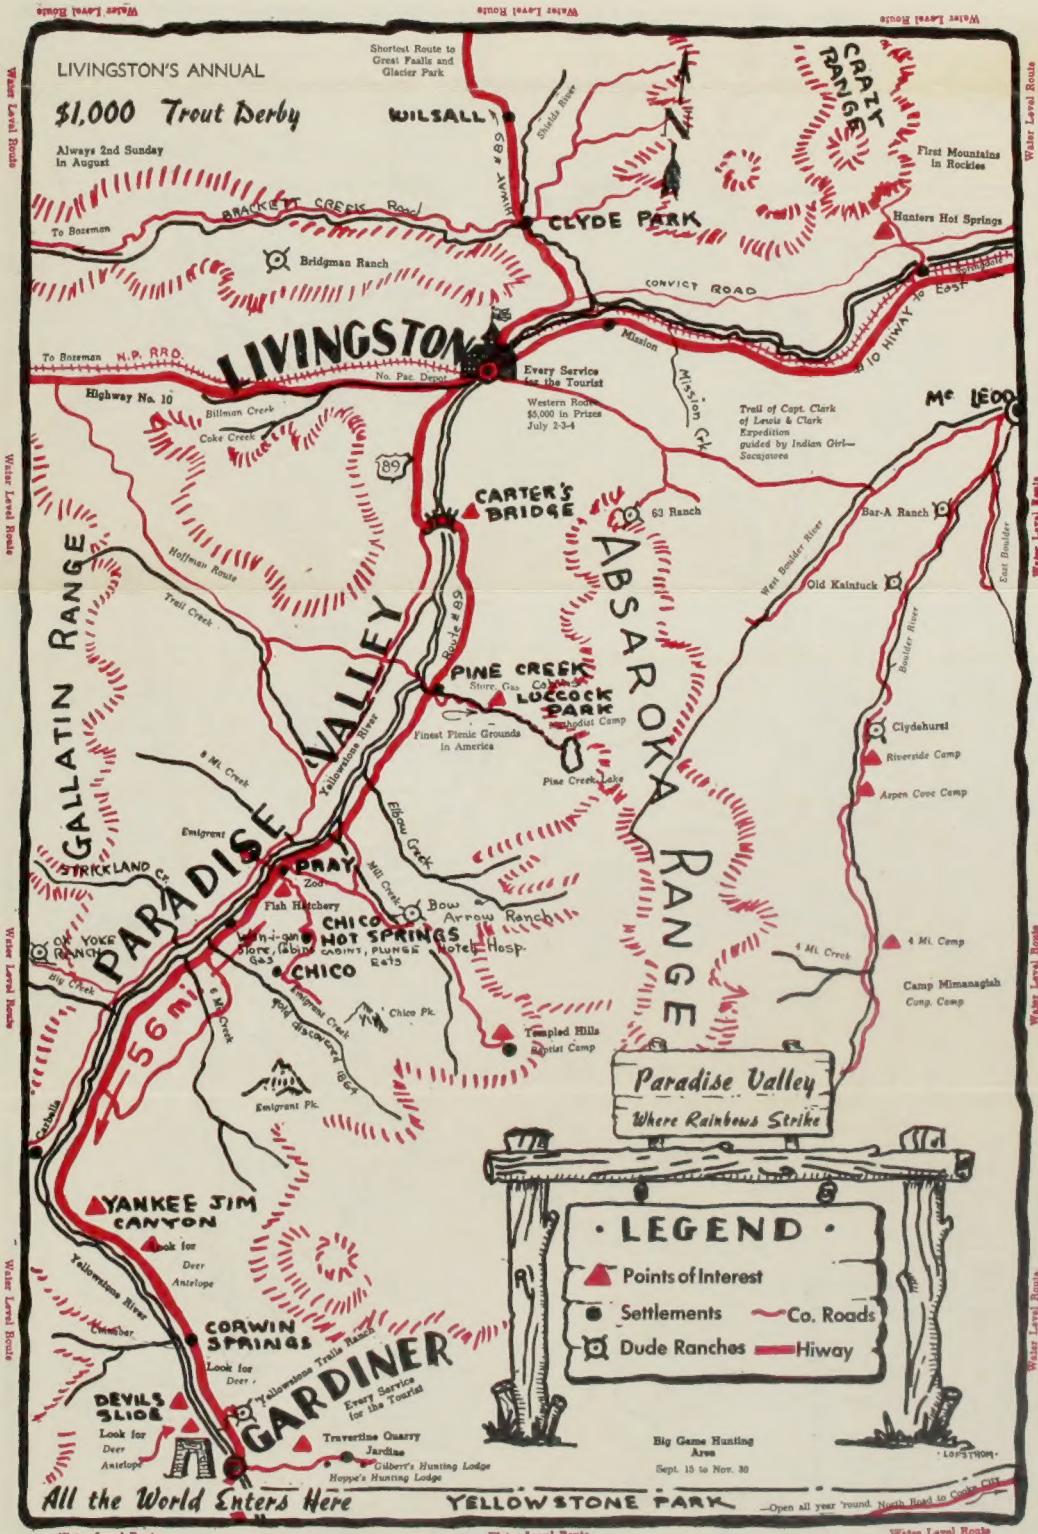

You will meet with fair dealing from the merchants and service people; you'll like the people and the country so well you'll plan on coming back again.

**Year Around Tourist Facilities at
Gardiner and Livingston, Mont.**
